This completes the competency test of your computer skills and the use of the Active System. Please have the test and your answers stapled together with this page attached to the back. Have this page notarized as a testimony to the fact that this is your work and demonstrates your knowledge of computers and the Active System. Scan this entire test with the notarized page and a copy of any photo ID. The photo will be used to make your official certificate of completion and certification as a Computer Certified Dietary Manager. You will then be marketed as one of the official experts on the use of the Active System and will begin receiving requests to interview for positions in Nursing Homes and/or Hospitals in your area.
