The mission of Active Healthcare Professionals Group is to provide you and your staff with the ability to provide the best care possible, and to continuously monitor the quality of the care you are providing to all your residents. Not only will you know you are providing Good Care, you will have detailed documentation to prove it at any time. With the Active Systems in place, your staff will be making informed decisions and consequently taking appropriate actions to provide the care needed in a timely manner. The Active System is easy to use, yet powerful and fast. You will find it to be a valuable resource and tool.

Solutions and Service

Active Healthcare Professionals Group, LLC

Regional Consulting Services

**Dietitian • Dietary Services
MDS • Nursing Services
Risk Management**

Consulting Dietitian Services

Consulting Dietitian Services provide detailed Nutritional Assessments based on Resident Visitation, MDS Transmission Information, Medical Chart Review and Historical Information on the comprehensive Nutritional Care of the Resident. The Nutrition Management Program (NMP) builds a "Safety Net" beneath ALL your residents to ensure they ALL receive the nutritional care needed to maximize the Quality of Their Lives and to maintain the Highest Nutritional Status.

Computer Certified Dietary Manager

A Computer Certified Dietary Manager is a CDM that has been thoroughly trained in the use of the Active System software provided to your facility as part of consulting services, or for a nominal monthly fee. With this software, the Dietary Manager will be able to provide a Truly Exceptional Level of Service to your Residents and your staff. They will be able to do this while remaining within your current Food, Supply, and Staffing budgets. Ask about Computer Certified Dietary Managers in your area.

Certified Assistant Dietary Manager

A well trained working assistant Dietary Manager is the key to providing consistently excellent services within today's staffing budgets. This is why Active Healthcare has developed a certified training program for assistants that can perform routine managerial functions while filling a position in the kitchen. They are formally trained in scheduling, ordering, menu management, temperature recording and printing. The Active System allows them to do all this while continuing their usual duties.

Regional Consulting Services

provide a helpful coaching approach that ensures the quality of your care and consistent, thorough documentation. Your staff will find that our services help them do their jobs and document their efforts in all areas of the RAI process. We provide all the software you need, and our staff monitors the use of the software on a "real time" basis. Monthly, Quarterly, or Semi-Annual, visits provide the follow-up and hands on attention needed to maximize the benefit of our services. Our approach is simple, straight forward and effective.

- Automated Analysis of ALL MDS Assessments Transmitted from your Facility
- Automated Analysis of ALL ADL sheets to maximize RUG levels
- Physician's Order Tracking to Labs, Dietary, Treatment Sheets, Pharmacy, Rehab Services and Care Plans
- MDS, RAP and Care Plan real time coaching, matching, analysis and completion monitoring
- Complete Dietary Standards of Practice, Sanitation, Menu Management, Clinical Documentation Package

We provide the software, setup, and real time monitoring. You Pay One Small Monthly Consulting Fee.

Corporate Dietitian Services

We provide Quality Menu Management services to all your facilities and ensure Cost Control measures are followed on a Daily Basis. Our Spend Down Coaching System and Active Price Comparison Program, along with our Individual Order Monitoring System allows your Dietary Staff to provide the highest quality meals within your budget. You no longer have to resort to using poor quality food products to meet your food cost goals. We will show your Dietary Manager, Cooks, and Diet Aides how to provide better food, better service and better care within your current budget. Our Dynamic Menu Management System will allow your Dietary Manager to change the Menu Whenever the Resident's request a change. This provides your Dietary Manager with a tremendous tool for improving and maintaining a high level of satisfaction among ALL your residents.
